

Introducing the Support Plan Solution

January 04, 2018

Support Plans vs. Hourly Contract Fee

So what is the incentive is for buying a subscription versus paying the normal contract fee?

Hiring a developer full-time or by contract can be expensive and risky. You don't know how much time it takes, how much you might pay, and what kind of quality you will receive in the end.

Instead, consider the Advantages of a Support Plan:

- Discounted Hourly Rate
- Free Wordpress Plugin Updates
- Unlimited Wordpress Training
- Remote Desktop Support
- Free Staging/Sandbox Site

(additional sites at addtl fee)

My Support Plans is Not Just a Retainer, it's the Full Package!

Websites require more than a fix here and there. Websites are like any other machine that needs upkeep, maintenance and safety checks. My Support Plans give you all the tools to keep your website in top working condition.

Support Plan Features

Discounted Hourly Rate

Depending on which plan you choose, you will always receive development time that will cost less than my normal rate if you hired me on a per project basis.

Free Wordpress Plugin Updates

Wordpress websites are often made up of themes and plugins that are constantly updating. I'll keep your website secure with the latest updates and patches.

Unlimited Wordpress Training

Your service plan comes with one-on-one Wordpress training (as an end-user) so you can be a Wordpress expert like me!

Remote Desktop Support

We can schedule a time where I can take control of your computer while on Skype to help you with hands-on support of your Wordpress site.

Free Staging/Sandbox Website

Your site will never show an error message while I make changes to your website. Staging/Sandbox copies of your website are private workspaces for me and not your customers.

Pricing

Basic Plan	Pro Plan	Enterprise Plan
\$59/mo or \$600/yr <i>(\$29.50/hr rate monthly)</i> <i>(\$25.00/hr rate yearly)</i>	\$170/mo or \$1700/yr <i>(\$28.33/hr rate monthly)</i> <i>(\$23.61/hr rate yearly)</i>	\$300/mo or \$3000/yr <i>(\$25.00/hr rate monthly)</i> <i>(\$20.83/hr rate yearly)</i>
